MR. WEBB'S "NO."

Mr. FLORENCE F. DONOVAN, of the State Board of Arbitration, has come to New York and, in the name of the Board, invited Mr. WERR to a conference with representatives of the road's employees, that another strike, now "seriously silk. threatened" on the Central, may be

If the lusty wife of some drunken brute of a husband can knock him out in a domestic broil, this is her good fortune and none will deprecate her doing so. But let fair woman refrain from professional fisticuffing.

MR. BEATTIE'S ENGINE.

The Street Commissioner has been deprived of his little engine with which he was trying a new experiment in cleaning streets. Mr. Looms, engineer in charge of the sewers, complained that this proceas would play the dickens with the catch-basins. The Street Commissioner does not agree with this view, but the fire engine has been called in. Amid this conflict of opinion the dirty streets remain uncleaned. Poor Mr. BEATTIE!
